

Did You Know West Boylston Municipal Light Plant Offers Free Virtual Home Energy Audits?

Call (888) 333-7525 to schedule one today!

While in-home energy audits have been suspended temporarily, **WBMLP** is currently offering **free** virtual audits through the Home Energy Loss Prevention Services (HELPS) program. Customers who have access to technology such as smart phones and tablets may be eligible.

What is a Home Energy Audit?

In a home energy audit, an auditor examines different aspects of a homeowner's house such as appliances and heating and cooling systems, and creates a report with recommendations on how to cut down energy use and save money.

As a thank you, homeowners will be mailed energy efficient LED light bulbs for participating in the audit.

How Do Virtual Audits Work?

Step 1: Customers should call (888) 333-7525 to determine eligibility.

Step 2: The auditor uses technology such as voice, picture, or video chatting apps to communicate with the homeowners and walk them through the auditing process.

Step 3: Homeowners are given an audit report with efficiency and rebate recommendations.

Rebates Offered

WBMLP offers rebates for energy efficiency improvements in several different areas including:

- ENERGY STAR® Appliances
- WiFi Thermostats
- Heating and Cooling Systems
- Home Efficiency Initiatives (such as insulation)
