

BENEFITS OF HEAT PUMP WATER HEATERS

NEXTZERO
EXPERIENCE WHAT'S NEXT

Does your water heater need to be replaced? Heat pump water heaters are the lowest carbon option for water heating and are eligible for a rebate from West Boylston Municipal Light Plant! Here are four benefits of heat pump water heaters.

Produce less emissions than other water heating methods

More efficient than standard electric water heaters

Requires less maintenance than oil and gas water heaters

Eligible for a \$500 NextZero rebate
