

UPGRADE YOUR WATER HEATER TODAY!

Is your water heater more than 10 years old? Consider upgrading your water heater now, before it fails, with a modern heat pump water heater and lower your carbon footprint.

For West Boylston Municipal Light Plant customers, heat pump water heaters:

- produce **5.8x** less CO2 emissions than gas
- are eligible for a NextZero rebate
- are **2.5x** less expensive to operate annually
